Title of the Collection: **Medical Reserve Corps Unit Profile and Reports**

Type of Collection: Revision

OMB No. 0990-0302

Abstract: Medical Reserve Corps Units are currently located in 748 communities across the United States and represent a resource of over 300,000 volunteers. In order to continue to support MRC units, detailed information about the MRC units, including unit/user demographics, contact information, volunteer numbers and information about non-emergency and emergency unit activities is needed by the MRC Program. MRC Unit Leaders are asked to update this information on the MRC website at least quarterly and to participate in a technical assistance assessment using the Capability Assessment and Factors for Success at least annually. This collection informs resources and tools developed as part of national programing and helps to identify trends and target technical assistance to support MRC units' preparedness to respond to disasters in their communities. The MRC unit data collection has been refined to eliminate duplication and streamline data collection tools.
